What does an electrician do?

Electricians install and maintain all of the electrical and power systems for our homes, businesses, and factories. They install and maintain the wiring and control equipment through which electricity flows. They also install and maintain electrical equipment and machines in factories and a wide range of other businesses.

Who may enroll in this one-year program?

Students in Grade 11 or 12 who are applying for this program must have HCS3000 Workplace Safety Systems and complete the following high school courses before completing the Pre-Employment Electrician Program:

- Math 10C or 10-3
- ELA 10-1 or 10-2
- Science 10

How do students earn a SAIT Pre-Employment Electrician Certificate while in high school?

Students complete their High School Diploma requirements using SAIT Electrician courses as CTS Credits. This program has been designed to fulfill requirements of Alberta Education, Alberta Apprenticeship and Industry Training, and the SAIT Pre-Employment Electrician Program.

Who will teach the courses?

SAIT instructors will deliver the program at the SAIT Campus and will be supervised by a Palliser off-campus teacher.

When will the program take place?

The program will be delivered at the SAIT Campus four days a week, Monday to Thursday, from 8:30-11:30 a.m.

How do students get to SAIT?

Students are responsible for their own transportation to and from SAIT. LRT access takes students right onto the campus. Parking is available at a cost to the student.
